PROJECTS:

Project name: ME&U Restaurant website (DJANGO)

- Created a responsive and user-friendly restaurant website to facilitate food listings and Searches.
- Responsive Design Utilized Bootstrap to ensure the website is fully responsive and Accessible across various devices, including desktops, tablets, and smartphones.

Project name: Restaurant management system (SQL)

- Product Listings: Allows users to add, update, and view details of food items in menu available for rent or sale (e.g., location, type, size, price, etc.).
- A Restaurant Management System relies heavily on SQL operations to interact with the database.

Project Name: Movie App (React)

- Created a responsive and user-friendly Movie app to facilitate movies listings and Searches.
- Users can search movies, upcoming movies, top-rated movies in this app. And describe the movie rating and description.
